

Mediation in Billing

Usage data comes in many different forms, based on the source and format of the data. Mediation in Gotransverse is fully customizable and automated, allowing you to change the way each incoming event is handled automatically, without manual intervention.

The screenshot shows the 'Run Manager' interface for a mediation run. The top navigation bar includes the 'gotransverse' logo and the 'Mediation' section. The main content area is divided into 'Run Information' and 'Status Summary'. The 'Run Information' section displays the following details:

Field	Value
ID	3066982
Run Date	03/10/2020 10:33
Job Run Name	123

The 'Status Summary' section shows 'Run Status' as 'rating submission: complete'. Below this, there are tabs for 'Import', 'Normalized', 'Mediated Success', 'Mediated Failed', 'Rating Success', 'Rating Failed', and 'History'. The 'Mediated Success' tab is active, displaying a table of service period data:

Service Period Id	Start Time	End Time	SRID	Service Resource Type	Usage UOM	Usage Amount	Sequence ID	Se ID
01/02/2020 09:23			2195048	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919375	5
01/02/2020 07:27			2195042	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919376	4
01/01/2020 23:38			2195038	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919377	3
01/01/2020 23:41			2195034	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919378	2
01/01/2020 23:44			2195030	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919379	1
01/02/2020 05:56			2309358	GENERIC_SERVICE_RESOURCE	CURRENCY	1	919380	0

Benefits of Automating Billing Mediation

Mediation is a critical part of the billing process. It converts data from a variety of different data sources into a format that is easily digestible by the Gotransverse platform, to automate and streamline your billing operations.

Gotransverse Mediation is completely customizable, with configurable business rules to handle the normalization, aggregation and transformation of your event data to meet your specific data requirements and submits it to our rating engine for invoice calculations. You get complete visibility to the process, identifying errors before they become problems.

Usage-based billing is unique in the immense volume of events that need to get processed in near real-time. Legacy billing systems with manual processes simply can't keep up. Reduce errors with an intelligent billing platform today.

Key Features

- ✓ **Configurable Business Rules**
- ✓ **End-to-End Traceability**
- ✓ **High Volume Event Processing**
- ✓ **Error Detection and Prevention**

Configurable Business Rules

Usage data needed to be processed by a billing solution can come in a variety of different formats based on what kind of data it is and where it comes from, so Gotransverse Mediation uses configurable business rules to convert the data into the right format for the rating engine.

End-to-End Traceability

Get full visibility into your data as it gets normalized, aggregated, and transformed to the right format to be ingested by the rating engine to ensure new data gets processed correctly. Trace it until you are comfortable having it run on its own.

High Volume Event Processing

The Gotransverse automated mediation engine can process high volumes of data at enterprise speeds, and is designed to grow with your organization by allocating and deallocating resources as needed. Say goodbye to data bottlenecks during high-demand usage periods.

Error Detection and Prevention

Gotransverse mediation can identify errors in event data (malformed data, changes in data format, etc...) immediately and isolate errors for repair, eliminating bugs in your billing process before they negatively impact your customer's experience.

About Gotransverse

Gotransverse provides cloud-based software that enables companies in any industry to operate as a subscription business model, including the often challenging aspects of usage-based pricing and monetization at massive scale. Founded by globally recognized billing experts, we offer an intelligent billing and subscription management platform that automates the subscription order-to-cash process, including billing, rating, collections, mediation, analytics, and revenue recognition.
