

# Premier Data Access

For data-driven businesses that require additional reporting capabilities, Gotransverse gives direct access to usage, billing, and receivables data that can be used with your preferred reporting solution, helping you visualize and share the data that drives your business, and to combine data sets for more holistic data analytics.

## Key Features

- ✓ Direct access to your data
- ✓ Use any reporting tool
- ✓ Combine with other data sets

## Data without Limitations

Go beyond the standard reports that come with Gotransverse, to Premier Data Access, which gives you direct access to your data through a Snowflake data lake. Get faster reports, across all your Gotransverse data, including core and microservices data. Send your data directly to a company-wide data lake in use to pull other business reports or Gotransverse can work with you on a Gotransverse data lake to setup reporting customized to your needs.

## Preferred Data Visualization Tool

Many organizations have company-wide reporting tools used to report back to the business. Use Premier Data Access to give popular reporting tools like Tableau, Microsoft Power BI, Qlik Sense, and more direct access to your billing and revenue management data. Get all of your reports in one place.

## Insights Across Your Business

Make stronger, quicker business decisions by combining your billing and revenue recognition data with other important business data like your CRM, CPQ, and ERP data. The potential is limitless – get detailed profitability and growth dashboards by adding your ERP data, get detailed campaign dashboards that go from click to revenue, and more.

## PREMIER DATA ACCESS OPTIONS:

### Premier Data Extracts

- Read -only predefined downloads of your Gotransverse data
- Up to 50 extracts per month
- Best if you just need the data

### Premier Data Sharing

- Connect your own data lake to your Gotransverse data
- Combined with data from multiple sources and sent to a reporting, analytics, AI, or ML tool of your choosing
- Best if you want to manage your own Snowflake data lake

### Premier Managed Data Access

- Your Gotransverse data is sent to a reporting, analytics, AI, or ML tool of your choosing
- Combined with data from multiple sources
- Best if you want Gotransverse to manage the data lake

## About Gotransverse

Gotransverse provides cloud-based software that enables companies in any industry to operate as a subscription business model, including the often challenging aspects of usage-based pricing and monetization at massive scale. Founded by globally recognized billing experts, we offer an intelligent billing and subscription management platform that automates the subscription order-to-cash process, including billing, rating, collections, mediation, analytics, and revenue recognition. Gotransverse was founded in 2008 and is headquartered in Austin, TX.
